HOW LONG

Duration:

The whole experience, from registration to watching your jump or extreme swing video on-screen, is roughly 20 – 30 minutes. However, this time is dependent on how busy the site is. Our customers arrive on-site, proceed with registration and payment and then join the queue on the platform.

Bookings:

During the busy period (over summer), we generally do not take bookings for individuals, but encourage customers to come in as early as possible. We recommend that groups of 5 or more, book at least 24hrs in advance, so we can make special arrangements.
